

Erewash Navigator

Issue 52 March 2021

Newsletter of the Erewash Canal Preservation and Development Association

March they say it comes in like a lion and out like a lamb well yesterday and today is proving so upto 50mph winds! Hope you have all stayed safe and for those on boats you wont need any rocking to sleep!

There were lots of pictures in the February Outlook of Stanton lock having new gates fitted. Mick and Carole sent in a picture of it from 1964!

The boats are Ohio and Trent 5.

February saw lots of freezing weather and here is a picture of Dockholme Lock with the frozen leaky gates.

And one last picture of some "wild life" spotted on the canal 😊

Monthly meetings are usually held every third Thursday at Sandiacre Lock Cottage starting at 7.30pm prompt.

We will now be holding these meetings via Zoom and the next one will be 18th March at 3pm.

Please contact Shirley to be sent the link to join – you can join via normal telephone or via the internet on a computer or other internet enabled device.
